

# Product Specification Summary

## siRNA:RNA Interference

Catalog Number	27-6430-10G
Product Name	Pre-designed 3 siRNA PAGE purified; 10 nmols
Size	10 nmols
Description	Pre-designed 3 siRNA PAGE purified; 10 nmols
Component/Note	Negative control siRNA duplex 2 nmols
Component/Note	Pre-designed 3 siRNA PAGE purified; 10 nmols each

### **Predesigned RNAi Explorer. \*Minimum 70% silencing.**

You simply give us the accession number or sequence for the gene to down regulate. Gene Link designs siRNA's using published criteria and proprietary algorithms. Gene Link guarantees a minimum of 70% silencing of your gene with at least one of the siRNA supplied. Three target and a negative control siRNA will be supplied.

Guaranteed RNAi Explorer Kit is only available for Human and Mouse Reference Sequence (RefSeq) Accession Numbers.  
- 3 specific target siRNAs custom synthesized by Gene Link, plus 1 negative control. Each siRNA is supplied annealed and ready to use after reconstitution. 2 nmols of negative control siRNA duplex is supplied.

- Guarantee: Gene Link guarantees a minimum of 70% silencing of your gene with at least one of the siRNA supplied. Gene Link will synthesize another set of 3 siRNA if evidence is provided that none of the provided siRNA was functional in achieving a minimum of 70% silencing.
