

Product Specification Summary

GScan™ Gene Detection Kits

Catalog Number	40-2038-15FMS
Product Name	SCA2 GScan™ Fam Kit Ver3; 20 reactions.
Size	1 Kit
Description	SCA2 GScan™ Fam Kit Ver3; 20 reactions.

Gene Link's GScan™ gene detection kits are safe, convenient and sensitive, and afford automated compilation of data. The kits contain optimized PCR amplification reagents and a wide array of fluorescent-labeled primers for genotyping after PCR using fluorescent genetic analyzer instrument(s). Included in these kits are ready-to-run control samples of various repeats of the triple repeat disorder kit. These control samples are for calibration with the molecular weight markers for accurate size determination of the amplified fragments. The GScan™ kits are simple and robust for routine triple-repeat detection of greater than 100 repeats of all triple repeat disorders.
