

Product Specification Summary

Genetic Tools & Reagents

Catalog Number 40-5022-20

Product Name Lumisol I, Hybridization Solution; 200 mL

Size 200 mL

Description Lumisol™ I is a ready-to-use hybridization solution containing 50% formamide.

Component/Note Product Description Lumisol™ I is a ready-to-use conventional hybridization solution based on the classic formulation

containing 50% formamide. It is toxic and a proper safe handling procedure is required for use and disposal. Wear appropriate gloves and safety glasses. Always use in a chemical fume hood when working with concentrated solutions of formamide. Applications Lumisol™ I hybridization solution can be used for all stringent types of nucleic acid blot hybridization conditions, particularly using radioactive labeled probes. Lumisol™ I hybridization solution can be used for prehybridization and hybridization. The hybridization temperature should be calculated for proper results. Duration of hybridization can be reduced to 6 hours and overnight hybridization can be used for high sensitivity requirements and for convenience. /
