Product Specification Summary

Sequencing Primers

Catalog Number	26-3000-10
Product Name	Lambda gt10 forward primer 21mer; 25 ug
Size	25 ug

This lambda gt10 forward primer is upstream of the unique EcoRI cloning site present in the phage imm434 gene region. This primer can be used to sequence inserts, and can be used with the Lambda gt10 reverse primer (catalog # 26-3000-11) to amplify the insert using polymerase chain reaction. The product is supplied as a lyophilized powder, after reconstitution store at -20 C. Oligo purity is greater than 98% as determined by denaturing polyacrylamide gel electrophoresis.
