

## Product Specification Summary

### RNA Interference

|                |  |
|----------------|--|
| Catalog Number | 27-6412-05                                   |
| Product Name   | Human Vimentin control siRNA duplex; 5 nmols |
| Size           | 5 nmols                                      |
| Description    | Pos. Control [NM_003380]                     |
| Component/Note | Unlabeled                                    |
| Component/Note | si RNA Duplex                                |
| Storage        | Store at -20°C                               |

A negative control should also be included when performing siRNA experiments to eliminate the possibility of nonspecific silencing effects. For this purpose, Gene Link provides a siRNA sequence that has been shown to have no effect on gene silencing. The negative control siRNA is also available labeled with fluorescein, which allows transfection efficiency to be tracked by fluorescent microscopy.
