

## Product Specification Summary

### Genemer™ Control DNA

Catalog Number	40-2027-04
Product Name	GLFRDA 125 GAA Genemer Control DNA Friedreich's Ataxia (FRDA); 500 ng
Size	500 ng
Description	Friedreich Ataxia
Component/Note	Control DNA
Component/Note	GLFRDA ~125 GAA repeats
Storage	Store at -20°C

A tube containing 500 ng of lyophilized control DNA segment. The control DNA's contains varying triple repeats. These are specific DNA templates for Gene Link's Genemer and PCRProber products. The above control DNA is an ideal genotyping template for optimizing and performing control amplification with unknown DNA. The size of the triple repeats has been determined by sequencing and gel electrophoresis. The stability of size repeats upon cloning and amplification has NOT been determined. Thus, the size should be considered approximate and there is no claim for each fragment to contain the exact number of triple repeats. The quantity supplied is sufficient for 1000 regular 50ul PCR reaction.
