

## Product Specification Summary

### Genemer™

Catalog Number	40-2036-10
Product Name	Factor VIII Genemer Pack (Hemophilia A); 10 nmols
Size	10 nmols
Description	Gene Detection System
Component/Note	Contains 27 Genemers
Component/Note	Genemer Pack
Storage	Store at -20°C

Genemer™ are optimized primer pairs for amplification of the gene fragment of interest, particularly those spanning a mutation. A wide range is available from single base pair mutation sites, the complex triple repeat disorders and various pathogens. Genemer™ kits are complete, easy-to-use systems for reliable genotyping of large repeats in certain triple repeat disorder. The Genemer™ product contains 10 nmols of the primer pair that is sufficient for 400 regular 50 µl amplifications. The Genemer™ Kit contains reagents as well as control DNA sufficient for 100 amplifications.
