

# Product Specification Summary

## Genetic Tools & Reagents

Catalog Number	40-3001-50
Product Name	Nuclease Free Water (DEPC Free); 500 mL
Size	500 mL
Description	Nuclease Free Water (DEPC Free) 500 mL
Component/Note	Nuclease Free Water (DEPC Free). Convenient package for all nuclease free water requirements for molecular biology applications.
Storage	Store at 4°C

Gene Link DEPC treated water and Nuclease Free water (DEPC free) has been treated and autoclaved water that are certified to be free of nucleases and nucleic acids. DEPC treated water still has a residual distinct smell and is recommended specifically for RNA applications.

Nuclease Free water (DEPC free) has not been treated with DEPC and is certified for all molecular biology applications requiring nuclease and nucleic acid free water. The smaller 1.6 mL product size is specifically recommended for RT-PCR (QPCR) applications.

Quality Control includes RT-PCR, standard PCR and RNA gels without any degradation certifies the product to free of non-specific endonuclease, exonuclease and RNase activity.

### Long Term Storage

Note for sterile water of volumes of 50 mL and more. These should be stored at 4°C and for long term storage it is recommended to aliquot smaller volumes in appropriate RNase free containers and store frozen at -20°C.
