

Product Specification Summary

Omni-Pure™ Genomic DNA Purification Systems

Catalog Number	40-4060-10
Product Name	Omni-Pure™ Plant DNA Purification System; 1000 purifications
Size	1000 Purifications
Description	Omni-Pure™ Plant DNA Purification System; 1000 Purifications

Component/Note The Omni-Pure™ Plant Genomic DNA purification system is designed specifically for plants sample. Plant samples v from soft fruits like banana and melons to hard seeds.

Component/Note The Omni-Pure™ Plant Genomic DNA purification system is designed specifically for plants sample. Plant samples v from soft fruits like banana and melons to hard seeds. Different protocols are detailed for specific groups of plant tissue

The Omni-Pure™ Plant Genomic DNA purification system is designed specifically for plants in sample. Plant samples v from soft fruits like banana and melons to hard seeds. Different protocols are detailed for specific groups of plant tissue. The purified DNA is appropriate for all molecular biology applications including restriction-based Southern blot analysis, PCR and QPCR-based analyses. The Omni-Pure™ Genomic DNA purification system is designed for convenience and consistency. Ultra pure genomic DNA can be purified from small amounts of almost all known plant sample types and sources.
