

Product Specification Summary

Genetic Tools & Reagents

Catalog Number	40-5023-20
Product Name	Lumisol II, Hybridization Solution; 200 mL
Size	200 mL
Component/Note	Ready-to-use hybridization solutions specifically formulated for non-radioactive chemiluminescent hybridization.

Lumisol™ II hybridization solution can be used for all stringent types of nucleic acid blot hybridization conditions, particularly using non-radioactive digoxigenin labeled probes. Lumisol™ II hybridization solution can be used for prehybridization and hybridization. The hybridization temperature should be calculated for proper results. Duration of hybridization can be reduced to 6 hours and overnight hybridization can be used for high sensitivity requirements and for convenience.
